

History

In the spring of 2000, several community organizers joined together to strengthen advocacy efforts for prevention programs in all 39 Washington State counties. This diverse group of organizers, representing large, small rural and urban communities, blended their ideas, strengths, experience, compassion, and enthusiasm to create an organization committed to promoting the prevention of and the reduction of the effects of alcohol, tobacco and other drugs and the reduction of incidents of violence. The result is WASAVP.

Mission

The mission of WASAVP is to unite prevention advocates in Washington State in order to create environments that support safe and healthy communities through prevention of substance abuse and violence.

Who We Are

In support of its mission, WASAVP commits to:

- Advocate on behalf of the statewide prevention community
- Encourage mobilization of communities for prevention activities and strategies
- Sustain and expand investment in prevention for local communities
- Support an inclusive continuum of prevention strategies
- Foster collaboration among prevention organizations
- Promote sustainability for prevention programs
- Encourage collaboration among funding sources
- Influence public policy to support prevention

How We Do It

WASAVP develops an annual legislative platform and contracts with a legislative analyst to assist in advocating for the platform with the Washington State Legislature.

WASAVP continually builds cooperative partnerships in support of prevention strategies, state agencies, non-profit organizations, associations, schools and communities.

WASAVP provides workshops on advocacy and program sustainability.

Benefits to Members

WASAVP keeps members informed about relevant legislation and progress of the bills.

WASAVP provides weekly updates from our legislative analyst.

WASAVP offers members educational training and technical assistance in prevention program development and sustainability.

WASAVP provides members with the opportunity to be part of the partnership of prevention providers throughout Washington State.
